

# A-3200D Series Digital Mixer Amplifier

**High performance audio mixers**  
matching your needs

**We supply sound, not equipment.**

# A-3200D Series

## Digital Mixer Amplifier

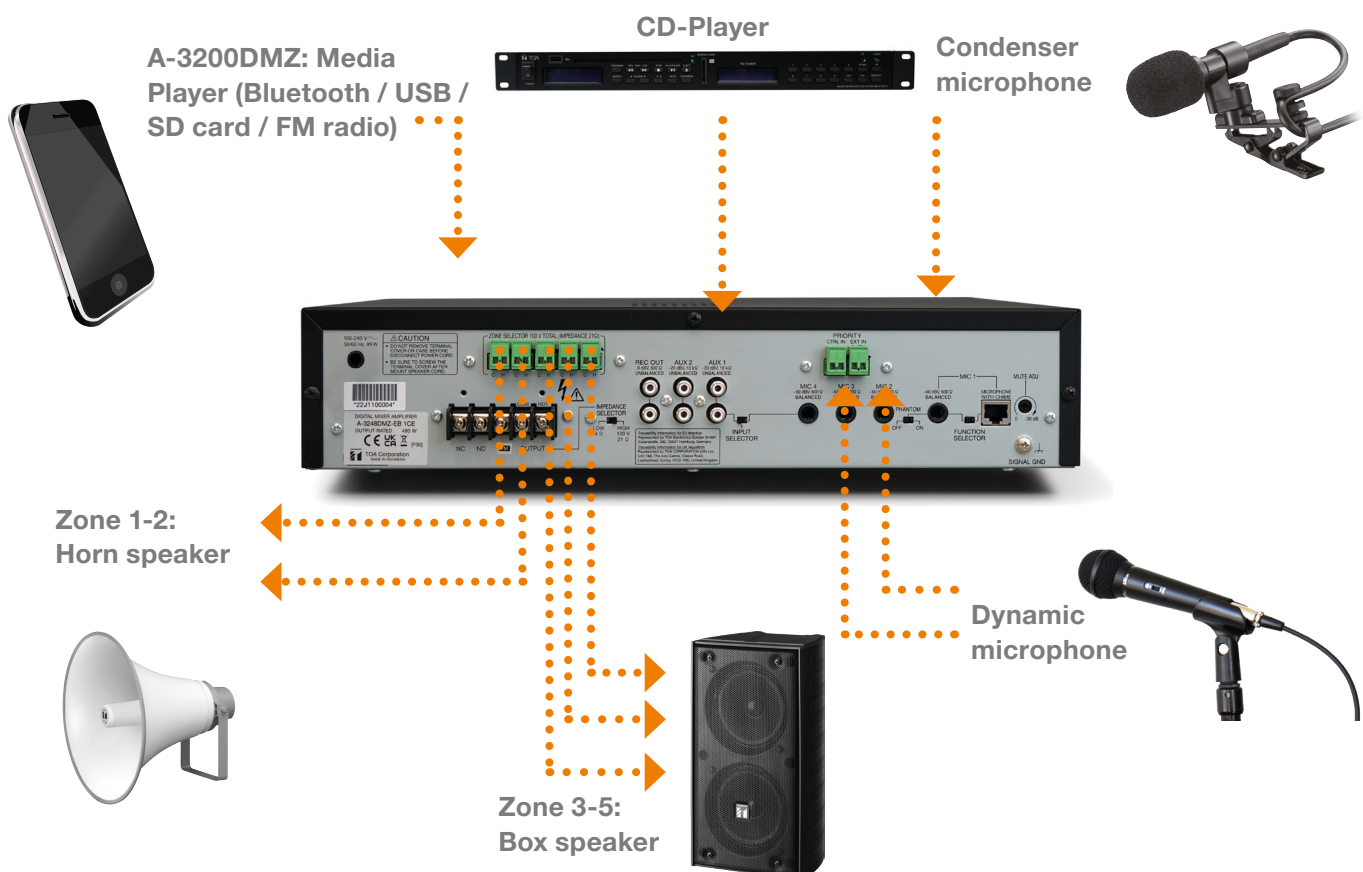

A-3200D is a **high-performance digital mixer amplifier series** coming in different set-ups and the ideal choice **for paging and background music**. The series divides into four different sub-series: **A-3200DM, A-3200DZ, A-3200DMZ and A-3200DME**. All of these offer the choice of 3 rated outputs: 120 W, 240 W and 480 W (A-3200DME only 480 W). If required, both low-impedance and high-impedance speakers can be connected. Regardless of the scale of your project, these options ensure that there is a suitable match for your needs. The distinguishing features among the sub-series are:

- A-3200DZ: Zone management
- A-3200DM: Media player
- A-3200DMZ: Media player with zone management
- A-3200DME: Media player with 5-band equalizer

Due to its digital technology, this mixer amplifier series is **energy efficient and eco-friendly**, saving costs at an optimal price/performance ratio.

### A-3200DZ / A-3200DMZ

**Multi-zone management** required? With the **A-3200DZ**, **up to five zones** can be managed in one amplifier. The device offers connections for **up to 4 microphones** and **2 additional AUX inputs**. Additional **media player** required? The **A-3200DMZ** also has an integrated media player with the following interfaces: Bluetooth / USB / SD card / FM radio. These mixing amplifiers with zone management offer full sound control and flexible output power.

## A-3200DME-EB

The **A-3200DME** offers that certain extra for all audio lovers who like to enjoy good sound: using the **equalizer, five different frequencies** (80, 315, 1000, 3150 and 8000 Hz) can be set and thus raise the sound experience to a higher level. The integrated media player including **Bluetooth function** allows flexible connection, ideal for frequently changing users.
