FULL D1 HIGH RESOLUTION 2U DVR

Honeywell CADVR-D is an easy-to-use 2U digital video recorder series available in 4, 8 and 16 channels. By deploying H.264 video codec and supporting full D1 resolution recording, the CADVR-D delivers high standard videos and images for different surveillance applications. The DVR gives users the ability to live view, record, search and transmit up to 4 / 8 / 16 channels of analog video sources and alarm input. It is an ideal solution to efficiently view and monitor different areas of assets.

The CADVR-D supports BNC, VGA and HDMI output, that the DVR can be connected to monitor or TV easily to display surveillance pictures and control the viewing via remote controller. Various alarm activation functions such as alarm triggered recording, short message posting and snapshot taken make the CADVR-D work flexibly with third party systems. In addition, each CADVR-D operates easily through cross network real-time monitoring, remote recording and searching, and PTZ control.

Market Opportunities

The CADVR-D is specially designed for medium-scale surveillance installations such as retail stores, dispensaries, clinics, commercial buildings and small offices. It is compact and easy to configure and operate. Being easy to be installed like a household video recorder, the CADVR-D is ideal for making informed security and business management decisions.
