

ET-CL03 ET-CL03P

CEILING LOUDSPEAKER

ET-CL03

ET-CL03P

FEATURES

- Clear and stereo audio performance
- Compact design
- Optional versions with / without back dome
- Easy to install
- Comply with international safety regulations

The ET-CL03 and ET-CL03P are economical ceiling loudspeakers. Their small and compact design makes them blend easily into most indoor applications.

Each loudspeaker has a 100V transformer on the back, able to produce sound with 3W power. Owing to the small height, the loudspeaker is suitable where the ceiling space is very narrow. With ABS back dome, the ET-CL03P can be protected from the dust and falling objects.

The loudspeakers are good choice for speech reproductions in applications, e.g. shops, schools, hotels and commercial buildings.

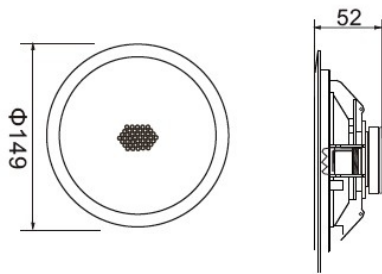

SPECIFICATIONS

Model	ET-CL03	ET-CL03P
Rated power	3 W	
Impedance	3.3 kΩ	
SPL at 3W/1W(160Hz~10kHz,1m)	95 dB/90 dB
