SIMPO

ADDRESSABLE FIRE ALARM PANEL

EN54-2/4
EN54-13

- Up to 2 loops, expandable by loop card

- Up to 250 devices per loop, 500 per system (No limit for detectors. Loop and Battery calculators)

- 10 000 events log

- 48 zones / 16 LED indicators

- Only 1 battery 12V/18Ah

- Multilanguage support

- Double address detection and localization

- Short circuit detection and localization

- Loop break detection

- Integration protocol - ModBUS over TCP/IP (TTE LAN module)

EN 54-13 Certified

SIMPO TTE Loop

- TTE protocol
- Supports SensoIRIS devices
- Max. consumption of the loop devices - 0.5A
- Max. number of devices in the loop - 250
