Face Acces Controller

DT03

Specifications

OS	RTOS itelligent operation system
Camera	200W pixel HD color camera \200W infrared live camera
Fill Light	LED high light fling lamp (automatic control according to ambient light)
Working Voltage	DC-12V-10%
Power Supply	DC-12V 3-5A
Display Screen	5-inch LCD screen, capacitive touch screen 272*480 .
Working Temperature	-15°C~ +45*C (Storage Temperature-10°C~ +65°C)
Working Humidity	20% ~ 90% (Storage Humidity20% ~ 90ffl2%)
Capacity	2000 Face/code/card in total
Users Record	100,000pcs
Keypad	Touch screen virtual keypad
Access Mode	Face/Card/Pin, Face +Pin, Pin+Card(EM)
Recognition Distance	pure dynamic face recognition- 0.5-3m ,open liveness 0.5-1.5m
Intelligent Function	Infrared liveness detection
Door Contact signal	One group signal Input
Door Bell Control	One group signal
Relay Output	Door open signal control one group
Output	WG26/34 out put (could be used as a reader and connected with a controller)
Weight	500g
Size	173*83*22mm
